By: growthh.ai

Welcome! 👋 This guide helps you create a **30-day content calendar in 30 minutes or less** using ChatGPT. Whether you're a creator, coach, or business owner, these prompts will save you time & spark ideas.

Step 1 – Get 10 Content Ideas in Your Niche

👉 **Prompt:**

"Give me 10 engaging content ideas for [your niche]. My target audience is [describe audience]. Keep the ideas fresh and high-engagement."

Example:

"Give me 10 engaging content ideas for a fitness Instagram page. My target audience is busy moms looking to lose weight at home."

Step 2 – Script Viral 30-Second Reels

👉 **Prompt:**

"For each content idea above, write a 30-second script for an Instagram Reel that's catchy, hook-based, and action-oriented."

Optional Add-on:

"Make sure the tone is [funny/serious/motivational/etc.] and include a CTA at the end."

Step 3 – Customize & Record

👉 **What to do:**

- Copy the script

- Adjust language/words to match your own style

- Record & post! 🎥

💡 PRO TIP: Match Your Brand Voice

👉 **Prompt:**

> *"Here's a sample of my past content: [paste old captions, post text]. Learn my tone and rewrite the Reel script to match my style."*

This helps ChatGPT understand your unique voice so your content feels authentic.

🎯 Bonus Prompt: Hashtags & Captions

👉 **Hashtag Prompt:**

> *"Suggest 15 hashtags for my post on [topic] that help me reach [target audience]. Mix popular & niche tags."*

👉 **Caption Prompt:**
